

# Twist II Clean

Filter your water for longer equipment life.

The **Twist II Clean** filter is an inline filter designed to remove organics, sand and sediment from your water supply.

Used to filter water before entering equipment, the **Twist II Clean** filters have many unique and patented features and benefits placing them in a class of their own.

- Simple 1/4" turn operation
- Filter element flushes completely clean in less than 20 seconds
- No need to turn off water to clean (eliminates air in system)
- Rugged design installs indoors or outdoors
- Stainless steel filter element lasts for years
- Never buy filter cartridges again!

## Patented Reverse Flushing Action

When the top handle is turned, three events take place:

- 1 Flow direction is changed to inside-out
- 2 The filter element is lifted to open the bottom flush port
- 3 An inside-out backwash occurs, and the filter element is cleaned

Often Used

irrigation

vehicle care

industry

food processing

horticulture

animal health

# Further Information

## Technical Specifications:

— = recommended flow range

### Mesh Size Available:

-  30 Mesh (600 Micron) Element (Brown)
-  60 Mesh (250 Micron) Element (White)
-  100 Mesh (150 Micron) Element (Gray)
-  140 Mesh (105 Micron) Element (Black)
-  200 Mesh (74 Micron) Element (Blue)

## Dimensions:

## Chart

Model	Description	Filter Screen Size		Max Operating Pressure		Inlet/ Outlet Pipe Connection	Purge Outlet	Total Length	Length (inlet/ outlet to purge port)	Width (inlet/ outlet)
